…pieces that makes a difference..

5 Ave Collections is sprung from the idea of the Manhattan address, 5th Avenue, in New York, where a collection of strong and international brands and impressions are collected on one street, in one place.

"We don't want to be like everyone else, we want to be different." says founder Lars Andréason.

Therefore we have one simple rule when we design our interior concepts, "*pieces that makes a difference*" so that all items will create an impact in any room, in any home."

Welcome to one of Europe's fastest growing interior concepts, 5 Ave Collections
